Information has been received from a reliable source to the effect that at the United States Consulate General in Naples, where interviews are held for the processing of documents for Albanian refugees desiring to emigrate to the United States, there is an Albanian employee Abdyl Mustafa HENCI who is an enrolled member of the extreme "BALLI KOMBETAR" party. It is known that this organization which entertains nationalist-Communist ideas did not belong to the National Committee for "Free Albania" which was dissolved a short time ago, and it continues to pursue its subversive work among prospective Albanian anti-communist emigrants. The above subject is accused of altering and misrepresenting, in translating, inquiries and replies of interviewers and refugees who do not belong to his group and do not share his political ideas.

It is requested that the appropriate American authorities be apprised of the foregoing, since the work of HENCI may cause harm to innocent people of the highest morality and of proven anti-communist sentiments.
